WEIGHING AND MEASURING DEVICE REGISTRATION NOTICE

Registration of scales and meters used for commercial purposes is required annually.

Registration fees help to offset the cost of inspection and testing to ensure commercial devices are in compliance with state and local laws. If you need an application, you may print a blank form from our website or call our office to have one sent to you.

Please remember:

- ✓ A separate registration application and fee is required for each business location and/or each vehicle with one or more commercial scales or meters. Registrations are not transferable from one person to another or from one location to another.
- ✓ Registrations not postmarked within 30 days of the due date will accrue penalties. A penalty is applied to late registrations.
- ✓ All commercial scales and meters must be registered and sealed by the County Sealer before being used commercially or placed into service.
